

A Bibliography on Bibliotherapy and Hospital Libraries

By JEROME M. SCHNECK, M.D.
(From The Menninger Foundation, Topeka, Kansas)

THIS bibliography on bibliotherapy and hospital libraries has been prepared during the course of research on bibliotherapy at The Menninger Foundation. Articles on this subject are scattered through library, occupational therapy, mental hygiene, nursing, and psychiatric journals, thus handicapping research workers. This bibliography may, perhaps, ease the burden of librarians and physicians in obtaining literature on bibliotherapy and hospital libraries.

References are quoted according to the style of the *Quarterly Cumulative Index Medicus* whenever possible. In some cases the form used is the same as that appearing in other shorter bibliographies (Bishop (21), Jones (139), Macrum (190)). Journal abbreviations in the style observed in the British literature are used when the references have previously been listed in the bibliography prepared by Bishop.

1. ALLEN, J. K. The Library in Occupational Therapy, *Occup. Therapy* 11:415-423, Dec. '32.
